Cynthia,

Here's some information regarding Portage Creek. There has obviously been excavation work in some of these areas. I am trying to get you confirmation data and maps from the various sections to help Georgia-Pacific better understand the work that has been conducted. Please feel free to reach out to either John Canar or Craig Thomas at the emails above if there is specific information you are looking for.

Thanks

Jim,

Attached is a shapefile containing the PCB results from 1993 to 2011 for Portage Creek. We put this shapefile together with data from ARCADIS, Weston, and Maurice's EPA sampling. Since this isn't the original database, there may be unintended errors.

Thanks,
